**Response to "Notice of Drawing Inconsistency with Specification"**

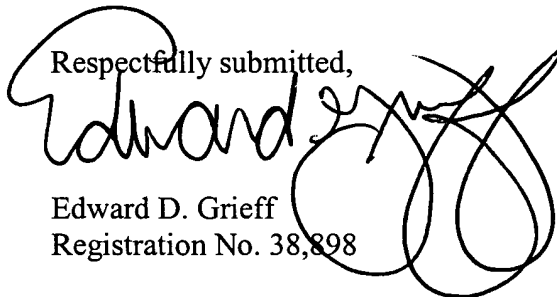

This Response is submitted in reply to the "Notice of Drawing Inconsistency with Specification" (hereafter "the Notice") dated September 12, 2005, for which a response is due on or before October 12, 2005. The Notice states that "Figures 3 & 4 are contained in the Drawings but not listed in the Brief Description of the Drawings in the specification."

Applicants respectfully disagree with the Notice. US Application No. 09/899,026 only contains Figures 1 and 2. Accordingly, the specification only refers to Figures 1 and 2. There is complete consistency between the specification, which describes Figures 1 and 2, and the application, which contains Figures 1 and 2.

It appears that the PTO may have erroneously reviewed the French priority document for US Application No. 09/899,026 when they mailed the Notice to the Applicants. The French priority document contains Figures 1, 2, 3 and 4; however, the US Application No. 09/899,026 as filed only contains Figures 1 and 2.

Contrary to the Notice, Applicants respectfully submit that there is consistency between the drawings and the specification.

Respectfully submitted,

Edward D. Grieff
